Workshop

Data Management Workshop of the "Pan-Caucasian Plant Biodiversity Initiative"

Thomas Borsch, Gerald Parolly

The Botanical Garden & Botanic Museum Berlin-Dahlem (BGBM) has recently launched a "Pan-Caucasian Plant Biodiversity Initiative". The kick-off meeting with partners from the three Transcaucasus countries Armenia, Azerbaijan and Georgia as well as the Federal Republic of Russia was hosted at the BGBM from 26th - 30th January, 2009. The second Caucasus Initiative meeting is organised as a two-day workshop (28th February and 1st March, 2011). It mainly focuses on topics related to aspects of data management within the initiative, but will also include a Status Seminar at the beginning. The workshop addresses to the meanwhile expanded board of consortium partners from countries of the whole Caucasus and of Europe.
